

REDFIELD COMES TO CHICAGO FOR HIS OWN INQUIRY

SECRETARY OF COMMERCE WILL
INVESTIGATE EASTLAND
DISASTER.

CORONERS INQUEST IS BEGUN

First Witness Said He Saw Water
Streaming From Pipe on
Boat's Side.

(Associated Press)
Chicago, July 27.—With the arrival here of Secretary of Commerce Redfield, who will make an independent investigation, eight separate investigations are in progress or are contemplated in connection with the disaster which befell the Eastland on Saturday morning.

Search Continues.

The search for bodies continues, while several persons, some of whom have been "identified" among the dead, have reported themselves safe.

Increase "Arranged."

States Attorney Hoyne declared today that Captain Pederson has told him that the federal sanction for increasing the boat's carrying capacity was "arranged" and that the captain was told to go to Grand Haven, Mich. to get his certificate.

Hoyne asserts that there were over 7,000 people on the boat at the time of the catastrophe. He says he has stubs for 2550 tickets, and that children under five years of age were not counted as they went aboard with their parents.

Inquest Started.

Robert Moore, a passenger, was the first witness before the coroner's inquest today. He said, "As I went aboard I saw a great quantity of water rushing out of a pipe on the north side of the boat. There was an interval of eight or ten minutes between the time the boat began listing badly and the time she finally overturned. There was ample time to have emptied the boat had warning been given, but there was no warning."

All Must Report.

Secretary Radfield stated this afternoon that any person connected with the federal steamboat inspection bureau, no matter where located, would be instructed to appear before the grand jury in connection with the Eastland disaster.

Bodies Washed Away.

It is reported today that only forty bodies remain in the hull of the overturned steamer, and that many were washed down the river by the under current.

Washington, July 27.—

The inquiry about to be conducted by the federal government into the causes for the accident to the steamer Eastland, which went down in the Chicago river with an appalling loss of life, will be the most thorough of the kind ever undertaken. Government authorities are wrought up over the charge that lax administration on the part of the steamboat inspection service which is a bureau of the department of commerce was a contributing cause for the tragedy. The inspection service itself is to be probed and the result may be a thorough reorganization.

Informal announcement was made by Acting Secretary of Commerce Sweet that an investigation of the cause of the tragedy would be made by a board of naval officers and civilians. This inquiry will be independent of that now in progress by officials of the steamboat inspection service.

Acting Secretary Sweet took occasion to say that D. M. Hoover, acting supervising inspector general of the steamboat inspection service, who is at Chicago, could be depended on to make a thorough and impartial investigation. The officials said that the Chicago inspectors engaged in the inquiry are not the men who recently examined the Eastland at Grand Haven, Mich.

Mr. Sweet, who returned here after a hurried visit to Syracuse, N. Y., talked with Secretary Redfield regarding the tragedy and the charges of negligence against the inspection service.

Mr. Sweet telegraphed Secretary Redfield, recommending an independent

GREAT BRITAIN ASKS NOTE BE WITHHELD

IS PREPARING NEW ANSWER TO
U. S. PROTEST ON COUNCIL
ORDERS

WILL NOT PUBLISH FIRST NOTE

(Associated Press)

Washington, July 27.—Great Britain is preparing another note replying to the United States protest on her orders in council, and has asked that the United States withhold from publication the note delivered yesterday. Therefore the note will not be published tomorrow, as announced.

The note, which was received yesterday, is said to have stated the following main propositions:

1. That new principles, differing from those announced by the United States, must be applied to the character of warfare being waged by Germany against Great Britain.
2. That the orders in council must stand, not only as a matter of right, but as made necessary by the present new methods of warfare.
3. That even international law, as it is laid down in American courts, permits a blockade of neutral ports when they are made a base of operations in behalf of an enemy of Great Britain.
4. That the remedy of the United States is not a continuance of the discussion of international law and the municipal regulations of Great Britain, but lies in the courts for judicial settlement now or after the war.
5. It is suggested to the United States that there are treaty regulations between it and Great Britain which provide means of settlement of disputed cases by arbitration, investigation and inquiry.
6. That Great Britain has proceeded as rapidly as she could with the disposition of all cases of seizures and detentions and reasserts her right, under the stress of new conditions, to abolish diplomatic discussion of such seizure and send the cargoes and vessels directly into a prize court for "judicial interpretation," and eventual settlement.

MARSHAL SHOT TWO WHO RESISTED HIM

FAIRHAVEN MAN DEAD AS RESULT OF DRUNKEN FIGHT
SUNDAY

Fred Isenhardt of Fairhaven is dead, and his companion, Ed Williams of Thomson, is dangerously wounded as the result of an attack made on Marshal Ed Beck of Thomson Sunday night.

Isenhardt and Williams were engaged in a drunken brawl on the streets of Thomson about 10 o'clock and when the marshal ordered them to desist Williams struck the marshal with the butt end of a revolver. The marshal sought to enforce his commands after being attacked by Williams, and shot the latter.

Isenhardt, it is charged then attacked the marshal and was in turn shot to death. Isenhardt, it is charged used a neck yoke on the marshal before the officer killed him.

Intense interest was taken in the battle exercises of the New York national guard and regulars at Fishkill Landing, N. Y. Every day hundreds of spectators went to the sham battle grounds and got an idea of the quality and efficiency of the men who will be asked to go to the front in the event of this country going to war with a foreign power. In the accompanying illustration is shown the ambulance corps at work after a particularly "fierce" battle. One of the "wounded" soldiers is being placed in one of the most up to date army ambulances made.

4 O'CLOCK.

Friday will be Governor's Day at Camp Dunne, at which time Lieutenant Governor O'Hara, Acting Adjutant General Shand and their staffs will inspect the Third Regiment, which is in camp this week. The grand parade and review will take place at 4 o'clock Friday afternoon and the public is invited to attend and witness the review.

INSPECTED NEW PAVEMENT

Board of Local Improvements Looked
Over N. Crawford Ave. Job

The board of local improvement this morning inspected the brick pavement on N. Crawford avenue, recently completed by contractors Rink & Schnell previous to accepting the work. Outside of a few depressions between the street car tracks they found the work in good shape. The contractors have agreed to raise the brick in all places where there has been a settling and with this done the work will doubtless be accepted.

HORSES ATE GREEN WHEAT; DEAD

S. W. Miller Lost Two Valuable Animals Saturday

S. W. Miller of east of town lost two valuable horses Saturday, their death being caused supposedly, from eating green wheat, picked up around the straw stack after the threshing was completed. One of the horses was driven to town Saturday with a load of the wheat to be delivered at the Laing elevator, and following the delivery, died at the Manges feed shed.

EXTENT.

BRITISH LOSS 13,000 PER WEEK

Premier Gives Figures Showing the
Average Casualties Since
April 11th.

(Associated Press)

The London Times declares today that history can show no parallel to the tremendous extent of the German enveloping movement in Russia, and points out that the fall of Warsaw will have grave significance for the western front.

British Losses Heavy

The casualties in the British army and navy have reached 331,000, according to Premier Asquith. On April 11 Secretary Tennant announced that the total casualties to that time had been 139,000. If this is true the British losses during the last four weeks have averaged 13,000 per week.

Italian General Killed

Italian General Antone Cantor has been killed in battle. Both Italians and Austrians are suffering frightful losses according to reports, the Austrian casualties being the heavier because of their troops being mowed down in masses by artillery.

Advance Continues

The German advance on Warsaw continues energetically with the Russians resisting fiercely all along the wide front.

Frightful Fighting.

A Berlin correspondent on the Italian front described the fighting there as the "mightiest and the most frightful of the war." A seven-day battle is still unended.

REBELLIOUS TROOPS CORNER PRESIDENT

HEAD OF HAITIAN GOVERNMENT
FIRED UPON IN HIS PALACE
TODAY

(Associated Press)

Port-Au-Prince, Haiti, July 27.—Rebellious government troops attacked the presidential palace this morning and continued firing for two hours. President Guillaume and his party in the palace, who have a few loyal troops, are resisting. The building itself is in flames. The revolutionists are virtually in possession of the city. The movement was started by a regiment of soldiers who objected to being disbanded by Guillaume.

Leelanaw Case Before Wilson; Awaits Details

Until Crew Reaches Dundee No
Definite News of Attack
Can Be Known

Washington, July 27.—Indications are that the torpedoing of the American steamship Leelanaw by a German submarine off the coast of Scotland will constitute a case very similar to that of the Frye, now a subject of controversy with Germany and that it will not be regarded as "the deliberate unfriendly act" of which President Wilson gave warning in his last note.

No definite statement can be made in this regard, however, until the details of the torpedoing of the American vessel are received. Both the unofficial and official reports leave it in doubt whether the Leelanaw was given notice of an intent to torpedo her and her officers and crew given opportunity to take to the ship's boats. On this point the attitude of the United States toward the case will hang.

Nevertheless the report that the American ship had been torpedoed, coming on the heels of the resumption

ASK PERMISSION TO INSTALL WASTE CANS

CIVIC IMPROVEMENT CO. WOULD
HELP KEEP STREETS OF
DIXON CLEAN.

WITHOUT EXPENSE TO CITY

At the session of the city council this morning, H. M. Cosey, representing the Civic Improvement Co. of Oregon, appeared before the commissioners and asked permission to install and maintain free of charge to the city fifteen or more sanitary waste cans on various corners of the business district. The company has already placed these cans in several cities of the state as well as in the west and they afford a place to deposit waste paper instead of throwing it on the streets. The promoters agree to keep the cans painted and to have them emptied frequently. The matter was referred to the commissioner of streets, Collins Dysart, with power to act.

An ordinance for the apportionment of the assessment for the brick pavement on North Crawford avenue between Henry Floto and Benj. Schildberg past property owned by them in block 27 was passed. There has been a division of the property since the assessment was spread.

Several owners of lots on Second street in what was the college campus appeared before the meeting and asked permission to connect with the main sewer on College avenue. The privilege was granted provided they comply with the ordinance whereby the city is reimbursed for benefits received from the connection.

DAUGHTER SEES FATHER KILLED UNDER ENGINE

OTTO A. ASHER CRUSHED TO
DEATH WITHIN FEW RODS
OF HIS HOME

DID NOT HEED THE WARNING

Inquest Will Be Held This Afternoon
—Funeral Wednesday
Afternoon

Within the shadow of his home and with his daughter awaiting his arrival, Otto A. Asher met an untimely death under the wheels of the I. C. switch engine on the Sixth street crossing of the switch track Monday evening about 6:25 o'clock. His body was frightfully mangled, the right leg being severed close to the body, the right arm nearly severed at the shoulder, the left arm broken as was also his back. His face was badly lacerated from being dragged face downward over the cinders and the skull was crushed in. The news of the accident quickly spread and in a short time there was a large crowd collected at the crossing.

Was on Way Home

Mr. Asher was a painter by trade and was returning from his day's labor to his home at 1308 west Sixth street, the second west of the switch track. He had a bicycle tire thrown over his shoulder and was carrying a package of meat in his hand. The Illinois Central switching crew was returning from the Sandusky cement works with a train of cars and the engine was pulling hard to make the grade.

Mr. Asher reached the crossing just ahead of the train and it is thought that he must have been thinking of something else, for if he had looked around he could not have failed to see the oncoming train, for there is no obstruction at this point to have obstructed his view. Just before reaching the tracks he started south on the plank crossing at the side of the track. When he did not move from the tracks Engineer Burkmyer gave several short blasts with the whistle as a warning. Asher did not heed the signal of danger and in another second turned to go across the tracks. Inasmuch as there was not pilot on the front of the engine and in its place a running board, the latter hit him and he was thrown down and the heavy engine snuffed out his life.

Death Almost Instant

The train was stopped as soon as possible and his mutilated body was lifted from between the rails. A physician was summoned, but before he arrived life was practically extinct. The only person to witness the accident outside of the men in the engine and yardmaster Charles Ruggles, was his own daughter, Miss Carrie, who at the time was awaiting her father on the porch at their little home but a short distance away. The body was later removed to the undertaking room of Joseph Staples and the inquest will be held there at 4 o'clock this afternoon, Coroner George Stephens being unable to arrive from Ashton until this afternoon.

Obituary

Mr. Asher was born in Berlin, Germany, Sept. 2, 1856. He came to the United States about 35 years ago and took up his residence in Chicago. He was united in marriage about 15 years ago at West Pullman and with his family moved to Dixon about 10 years ago. He worked for some time at the Allen Weigle meat market, but of recent years has followed the painters' trade. Besides his widow he is survived by two children, Charles and Miss Carrie, both at home. As far as known he has no other relatives in this country.

The funeral will be held Wednesday afternoon at 2 o'clock from his late home 1308 west Sixth street, Rev. Theo. Drexel officiating.

AMERICAN COLLEGES—DARTMOUTH.

Dartmouth college was founded in 1769 by Eleazar Wilcox as a charity school for Indians, and endowed with a barrel of rum.

The Indians are still there, but the rum has disappeared and so has the charity, especially in the football season.

Dartmouth is located in the wooded hills of New Hampshire, safely isolated from the defenseless inhabitants. It has 1,400 students most of whom had ancestors at the college. These students live in dormitories which are frequently renewed and live by devouring luckless athletic teams from other schools. Dartmouth is not co-educational, but there is a rule against shooting women found on the campus.

Dartmouth was a small school for about 140 years and then startled itself by becoming big. It has an endowment of almost \$5,000,000 and owns many miles of forests on the Canadian line. The state of New Hampshire contributes to its support and so do fond fathers in every state in the Union and many foreign countries.

One of the small and exclusive organizations among the students is the New Hampshire club.

The students of Dartmouth live simple lives unexposed by society and amuse themselves with athletics. It is the most athletic school in the country. Its track teams have won intercollegiate championships since the days of Stephen Chase and its football team has achieved the distinction of being dropped from the Harvard schedule under the safety first rules. In the winter the students indulge liberally in skiing, snow-shoeing and in bogging camps in the wilds of New Hampshire where the scenery is durable and not easily displaced.

Dartmouth also has a course of study. The students are required to recite three times a day the fact that Daniel Webster and Rufus Choate were students at the institution.

Dartmouth has the most perfect colonial chapel in New England and when its old hall burned it reproduced it three times larger to the admiration of all architects. It has contributed many useful men to America, but it has also contributed the famous Dartmouth Case by which Daniel Webster helped establish the foundations of justice on which all vested interests in America rest. It is the only college in America that was ever accused of being a trust and this case was the first trust-busting failure.

ROCK RIVER ASSEMBLY TALK. FORECASTS OF COMING EVENTS

Tschakowsky Quartet which will appear at the Rock River Assembly, Wednesday, Aug. 4th, for a concert at 2:30 p. m.

The following letter will show what the secretary of the Wooster, O., chautauqua, thinks of the Tschakowsky Quartet, one of the big musical organizations to appear at the Rock River Assembly. The excellent quartet will be here August 4th.

The Dunbar Bureau,
Chicago, Ill.,
Gentlemen:—

Just to let you know that the Tschakowsky Quartet and Miss Wood came, saw and conquered. We never had a finer concert and never finer people. Hot night, big crowd, and we kept the music going for two and a quarter hours—and then were not ready to have the artists cease. A program an hour and a half long is usually all our people wish, but this was different.

Sec. Wooster, O., 7, 19, '15.
Very sincerely yours,

WILL SHOW MOVIES OF EASTLAND TRAGEDY

PRINCESS THEATRE TO SWELL RELIEF FUND BY SHOWS MONDAY.

The Princess theatre has taken the lead in Dixon to swell the fund for the relief of the families of the victims of the Eastland disaster in Chicago Saturday, having secured the Chicago Tribune's pictures of scenes attendant the sinking of the ship and the rescue of the passengers for matinee and evening performances next Monday. The net proceeds of the shows will go to the Eastland relief fund and it is sure that hundreds of people will attend.

The pictures were taken by the Chicago Tribune photographers who had been sent to the scene to obtain, as a news feature, pictures of the mammoth excursion crowd.

One camera was in operation when the Eastland began to list, according to Chicago authorities, and then the photographer became panic-stricken and forgot to reel his film. After a few moments he regained his presence of mind and returned to his work. By that time other cameras were busy and as a result, every detail of the heart-rending catastrophe is portrayed with the exception of the actual turning of the boat.

NEW LAWS RECEIVED

City Clerk Blake Grover has received a supply of hunter's license blanks, as well as copies of the revised game law. There are a number of changes made in the law and it would be well for all hunters to secure a copy and thus familiarize themselves with the provisions of the law.

China's Great River.

The Yangtze kiang, or Yangtze river, is as long as the Mississippi and is far more important as a highway of commerce. From the great port of Shanghai as far inland as the important city of Hankow, a distance of 600 miles, the Yangtze is navigable for ocean going vessels. For the greater portion of this distance the river is very broad, and for some of the journey a passenger in a boat in midstream would be unable to see either shore distinctly. From Hankow to Ichang, 280 miles farther, the Yangtze is navigable for small river steamers, and from Ichang up to Pingshanhsien, nearly 1,000 miles, it is in great part navigable. Some of the passenger steamers plying between Shanghai and Hankow are exceedingly modern and comfortable. Thousands of sailing craft are seen on the river daily on a trip between these two points and numbers of huge rafts which require each a whole village to bring them and their contents to the distant market. The Yangtze has many important tributaries. One of these, the Hanho, which flows into the Yangtze at Hankow, is itself navigable for 600 miles.

The President's Title.

In spite of our traditions and our pretenses Americans dearly love a title. It's a fair guess that a larger part of the mail that goes to the White House is addressed to "His Excellency" or "His Eminence" or "His Honor." As a matter of fact his title is The President of the United States. That is title so great that the fathers decided that to add to it would be to detract from it. The fathers were wise. Taking their cue from the federal practice the constitution makers nor the statute makers of New York ever gave the chief executive of this commonwealth other title than the governor of New York. Every governor of the state has been content with that. Address him so in letter or in speech and you are right. Decorate him with an "excellency" or an "honor" and you are wrong. The governor of Massachusetts is His Excellency by warrant of the constitution of 1780, but he is the only excellency we have in America.—New York Sun.

Buffoonery in "Hamlet."

The buffoonery once tolerated in provincial theaters is illustrated in an anecdote set forth in the memoirs of Barry Sullivan. Wright, who was the first gravedigger, prepared himself to take the house by storm by having incased his person within a dozen or more waistcoats of all sorts of shapes and patterns. When about to commence the operation of digging the grave for the fair Ophelia Wright began to unwind by taking off waistcoat after waistcoat, which caused uproarious laughter among the audience. But as fast as he relieved himself of one waistcoat Paul Bedford, the second gravedigger, incased himself in the castoff vests, which increased the salvo of laughter, for as Wright was getting thinner Paul grew fatter and fatter. Wright, seeing himself outdone, kept on the remainder of the waistcoats and went on with his part quite crestfallen.

Wisdom is merely common sense in an uncommon degree.

In helping the poor, actions speak louder than words.

Gold has benefited hundreds—and ruined thousands.

It's easy to ignore insults aimed at someone else.

MONTE SAN MICHELE SEIZED BY ITALIANS

Gorizia Faces Water Famine; 20,000 Austrians Taken.

Milan, July 27.—Monte San Michele has been almost wholly evacuated by the Austrians and occupied by strong lines of Italian infantry. The Italian batteries now command almost all the Austrian lines of communication behind Gorizia.

An attempt by the Austrians to deliver Gorizia by a general attack, after five days of battle, failed signally on July 22. Since then only minor actions have taken place. The Austrians are endeavoring to establish fresh positions behind those lost and continue to oppose stubbornly the Italian advance.

The number of prisoners taken in the five days' battle is said to be 5,800. The total number captured since the beginning of the war is 20,000. Almost all were taken between Tarvis and Montefalco.

The condition of Gorizia is now critical. Beside the shortage of food, water is also very scarce.

PAWPAW GAME WAS POSTPONED; TOO WET

CONTEST MAY BE PLAYED ON THURSDAY—MANY ROOTERS WERE READY

Because of a combination of wet grounds and threatening weather Manager Vaile of the Dixon Home Guards called off today's contest with the PawPaw Independents, and notified the PawPaw management just as they were preparing to leave for Dixon. Sixteen automobile loads of rooters had arranged to accompany the PawPaw team to this city. It is possible that the game will be played Thursday, decision to be reached this evening.

MAN REVIVED FROM DROWNING EXPIRES

Hemorrhage Finishes Work Water Did Not Complete.

Springfield, Ill., July 27.—Revived by artificial respiration for a short time, after he had been dragged lifeless from the Sangamon river, Pete Toness, a Greek of Fancy Prairie, section hand for the Chicago and Alton railroad, succumbed to hemorrhage of the lungs near Sherman.

Toness' cries brought the men of the gang to the side of the river, but not until after the pains he was suffering had pulled him under, so that it was several minutes before the boy's body was recovered.

Strenuous efforts restored the victim to regular breathing, but before consciousness was fully restored a hemorrhage of the lungs ended his life.

CASE OF PTOMAIN POISONING

Mrs. J. F. Myers returned yesterday morning from DeKalb where she was called Saturday by the illness of her daughter, Mrs. Lee Helley, who was stricken Friday night with a severe case of ptomaine poisoning, caused, it is supposed, from eating some canned tomatoes. Mrs. Helley was taken to the DeKalb hospital, and at latest reports is slowly recovering from the effects of the poisoning.

How to Beautify the Hair
A Simple and Inexpensive Home Method

If your hair is not fluffy, soft and lustrous, is falling out, streaked, faded, brittle, or full of dandruff, do not think it must always be that way, for pretty hair is only a matter of care and proper nourishment of the hair roots.
A scientific preparation called Parisian Sage sold by Rowland Bros. and at drug counters, supplies just the elements needed to invigorate the hair roots and stimulate the hair to grow long, thick, fluffy, soft and lustrous. It removes all dandruff and quickly stops itching head and falling hair. It is the ideal hair tonic and scalp treatment for men, women and children—contains nothing injurious, is inexpensive and easily used at home.
You will not be disappointed with this helpful toilet necessity, for it surely gives the hair beauty and charm.

JULY 27 1915

IT WILL HELP EVERYONE.

There are many farmers in Lee county who are so businesslike, so successful and so experienced that they are apt to ask themselves, "Why do I want a soil doctor to tell me how to farm?" It is not, in these cases, the direct benefit that a soil advisor may do you, Mr. Successful Farmer; it is the indirect benefit that he will bring to you through the aid he gives your less successful neighbor, for the most experienced farmer in Lee county and the richest farm in Lee county will be benefited in no small degree if the county as a whole is made more productive and more valuable. It means a rise in farm values, better living conditions, better roads, better schools, happier people and a number of other things that are desirable and worth all the trouble it takes to get them.

And, too, no matter how well we know our business, if we are wise to seek to learn more of it, for no man knows it all and the most successful man is usually the man who is always inquiring into new methods and always looking about him for something that may be profitable in his business. That is why he is successful.

The Lee county farmers who are bearing the burden of organizing a Lee County Soil Improvement association are a group of the most prosperous and most successful farmers we have. What does this signify? It shows that the men who have made the most out of their farms and who have the clearest vision are the ones who realize how much more can be made by organization, co-operation and scientific methods.

When the newspaper publishers have a conviction, which they do several times a year, the publishers who are anxious to miss no opportunity to learn more about their business and attend and right up in the front rows, from the opening of the session until the close, you will find the men who have built up the biggest institutions and who are the most successful in their line, and they are paying close attention to the words of every speaker. They listen carefully to the talk of men who in many cases know less about most phases of their business than they do themselves, but they are still making an effort to learn and they are eagerly looking for some idea that may be brought to them, whether it be worth a great deal or very little, that may be of value to them, and they always find it. So it is in every other line of business and so it should be in the farming business.

The farmer who looks upon the employing of an expert as an affront to his intelligence (and we do not believe there are many, if any, in this county), is taking a very narrow view of the proposition and is standing in his own light.

A soil expert can do much for the land workers of Lee county. Such a man can do more for some than for others, but he can do enough to pay for his salary a great many times over for everyone. The farmers should want such a man and so should the merchants. It is a vitally important subject to every citizen of the county.

THE BIG EVENT OF THE SEASON.

The annual session of the Rock River Assembly is unquestionably the big event of the summer season throughout this section of Illinois. There is no chautauqua in the northern part of the state that equals it and the fame of the Dixon Assembly has spread throughout the middle west. It has done a great deal to give Dixon favorable advertising, not only because of the enormous crowds that attend every year and the splendid, costly programs the management provides, but from the great amount of literature the association scatters over the country.

The Assembly starts Saturday, July 31st, this year, and as usual, lasts two weeks. The program is excellent and is worth many times what it costs to take it all in. The Assembly grounds are extremely large and form one of the most beautiful spots along the scenic Rock river, known everywhere as one of the favored spots of the prairies.

As a vacation place and a vacation time, the Assembly grounds during the chautauqua session cannot be surpassed, as the testimony of the thousands who come each year will prove. Come to the Assembly this year—live in a tent, get close to nature and fit yourself for another year of daily toil.

Wonder what Noah would think of this weather? He would probably be getting out his saw and hammer and sending out a mobilization order for the birds, beasts, etc.

BUILDING AND LOAN ASSOCIATIONS GROW

DESPITE FINANCIAL STRINGENCY BUSINESS SHOWS BIG INCREASE.

(Associated Press)
San Francisco, July 27.—The building and loan associations of the United States increased their assets more than one hundred million dollars during 1914, making a growth of 8.72 per cent over the previous year, according to the yearly report of H. F. Cellarius of Cincinnati, secretary of the United States League of Local Building and Loan associations, made here today at the 23rd annual meeting.

The secretary said: "Considering the fact that this period included six months of the great war in Europe, during which there also existed in this country an industrial depression more or less severe, this showing speaks volumes for the thrift and saving habits of the wage-earning classes of our citizens, who are the chief patrons of these institutions."

"The hard times apparently have stimulated an enforced economy, have required a reduction of unnecessary expenses, which in times of great prosperity are usually on the increase and have brought home to the people the necessity of conserving their resources. As a result they have saved as much or more in proportion than they did during the more prosperous periods."

"There are now in the United States 6,612 building and loan associations with a membership of 3,103,135, and assets aggregating \$1,357,140,036. This is an increase over last year of 183 associations, 267,002 members and \$108,860,897 in assets. The average amount due each member is \$437.36 against \$440.16, the amount shown last year."

BARBER'S STORY OF ATTACK IS REFUTED

CAPT. SIMMONS' POST QUARTERMASTER, SAYS HE WAS NOT HURT AT CAMP

Capt. Simmons, post quartermaster of Camp Dunne, refutes in every detail the story told by N. E. McCorkill, the barber who claimed to have been assaulted in his barber tent at the camp early Sunday morning. The Captain states that he had ordered the fellow off the camp grounds last week because of drunkenness, but when he had shown indications of straightening up had given him another trial.

The quartermaster states that McCorkill was not hurt at the camp but either in Dixon or on his way to the camp Saturday night, and in the officer's opinion the gash in his forehead was caused by a fall, and not from an attack. He states that McCorkill left the camp Saturday evening at about 5:30 o'clock. Investigation shows that he returned, the quartermaster states, at about 11:30 in a state of intoxication and at the time of his arrival at the camp the blood was oozing from the cut in the forehead. Capt. Simmons kept the man at camp until one of the army surgeons arrived with the Third regiment and had proper surgical attention given the wound.

BELIEVE CLARK SHOT SELF

Finding of Gun Near Place of Death Confirms Official Suspicion.

Shelbyville, July 27.—Searchers for the gun with which Paul Clark was shot on the highway south of this city found the weapon in the immediate vicinity of where the shot is supposed to have been fired, and where it was heard by James Evans and Mrs. Barden.

The gun was lying in the weeds fifteen feet west of the main beaten track of the road, and about 150 yards south of the crossroad. The finding of the weapon at that point confirms the officials in their belief that young Clark shot himself.

AGED MAN KILLED BY TRAIN

John Kline, Broadwell, Ill., Miscalculates at C. & A. Crossing.

Broadwell, July 27.—John Kline, aged eighty-two years, a wealthy farmer of this locality, was struck and instantly killed by the south bound C. & A. Limited.

Mr. Kline was driving in an open rig and being slightly deaf it is thought he did not hear the approaching train. His skull was fractured and body badly mutilated.

Sidney Lazarus and wife of Compton spent Sunday in this city with Sheriff R. R. Phillips and wife.

CANTON BUSINESS MAN SUFFERED 20 YEARS

M. Gibson Swiftly Restored and Feels Like Young Man Again.

M. Gibson, a business man of Canton, Ill., for 20 years was a sufferer from stomach disorders. He took many treatments and spent large sums seeking relief.

One day he tried a dose of Mayr's Wonderful Remedy. The results he sought came at once. He found quick relief. Telling of his experience, he wrote:

"Your medicine is the best on earth. I have spent hundreds of dollars on medicine, doctor bills and hospital expenses. I have been sick for 20 years. Since I took your medicine I feel like a young man again."

Mayr's Wonderful Remedy gives permanent results for stomach, liver and intestinal ailments. Eat as much and whatever you like. No more distress after eating, pressure of gas in the stomach and around the heart. Get one bottle of your druggist now and try it on an absolute guarantee—if not satisfactory money will be returned.

PRINCESS THEATER

Tonight the Princess theater has on its program a two reel Kay-Bee feature entitled "The Tide of Fortune," with George Fisher and Estelle Allen in the leading roles, a story of the Civil war in which a girl is turned out of her own house because of her love for a northern officer. The other pictures are a Keystone comedy featuring Ford Sterling entitled "Hisses' Resurrection," a very funny comedy. The last reel is a Reliance drama entitled "A Breath of Summer," with Charles Clary and Francella Billington in the leading roles, the romance of a factory girl.

On next Monday night pictures of the Eastland disaster will be shown at both matinee and night and the receipts will be given to the relief fund.

OPERA HOUSE.

The new vaudeville bill at the opera house played to large crowds last evening and gave an excellent show. The bill consists of Roberts & Fulton in a comedy sketch; Sheek & Raud, comedy dog actors, and one other good act. The same excellent bill will be presented this evening. Pictures for tonight are: "Courage," an intensely interesting drama, and episode No. 13 in two reels of "The Diamond From the Sky," entitled "The Man in the Mask."

THE PRICE SHE PAYS

There is hardly an American woman nowadays who can keep pace with the demands made upon her time and energy without paying the penalty of ill-health. It may be that dreadful backache, dragging pains, headaches, nervousness or the tortures of a displacement. It is the price she pays. To women in this condition Lydia E. Pinkham's Vegetable Compound comes as a boon and a blessing. A simple remedy made from roots and herbs which brings glorious health to suffering women.

or activities by the German submarines and reports of the unfavorable reception of the American note, caused a shock here. It is felt that any day is likely to bring a case which under the terms of the note sent to Berlin last week will force the president to take decisive action.

No Detailed Report Yet.

The torpedoing of the Leelanaw was officially reported to the state department by Consul Dennison at Dundee. The consul stated only that the vessel had been torpedoed, that the crew had been landed at Kirkwall, Scotland, and that they were proceeding to Dundee. The United States has only a consular agent at Kirkwall, so no detailed report of the case is expected until the survivors of the Leelanaw have reached Dundee.

Leelanaw Carried Flax.

London, July 27.—The American freighter Leelanaw, which left Archangel, Russia, July 8, for Belfast with a cargo of flax, was sunk by a German submarine off the northwest coast of Scotland. All members of the crew were saved and came to Kirkwall in their own boats.

The steamer left New York May 17 with a cargo of cotton consigned to Russia by way of Gothenburg. The vessel was detained at Kirkwall while inquiries were made as to the possibility of getting her cargo to Russia, as Sweden forbids the export of cotton. The ship was released June 26 with permission to proceed to Archangel, where the cotton was discharged and a cargo of flax was loaded for Belfast.

ent investigation of the Eastland tragedy by a board composed of naval officers and civilian experts.

Caricaturing Her Natural Action. Milwaukee, July 27.—"I stood on the deck, opposite the docks of the Chicago-St. Joe company Thursday," said John Morrison, a well-known lake captain, "and saw the steamer Eastland career under the influence of its water ballast so that the lines holding the boat to the dock were snapped like threads."

"Dozens of vesselmen and dock laborers saw the Eastland list and go so far over on its side that it was in danger of doing precisely what it did Saturday."

Milwaukee men familiar with the Eastland also say that three years ago the same accident occurred, except that the passengers were driven to the lower deck before the boat capsized, the steam hose being turned on them. A year ago a similar accident was narrowly averted.

All these mishaps were due, say marine men, to trouble with the water ballast compartments.

Eastland Poor Investment.

Lansing, Mich., July 27.—That there was something radically wrong with the steamer Eastland, which sank in the Chicago river June 24, 1914, is pretty conclusively shown by the records of the Michigan railroad commission.

Although the boat originally cost, according to the figures filed with the commission, \$306,000 when she was built in 1903, on July 1, 1914, she was worth only \$150,000 and that was the price her new owners swore they were paying for her.

Early in May, 1914, the Chicago and St. Joseph Steamship company petitioned the railroad commission for authority to issue \$100,000 worth of bonds, with which to buy the boat.

Bar Boat Excursions to Wreck.

Chicago, July 27.—Finding that hundreds of lives are being imperiled by tug and boat owners taking advantage of the curiosity of the crowds, which have been held in check on shore by the police, and running excursions up the river to the scene of the wreck, the harbor master ordered the arrest of all those conducting these excursions. It is declared that many launches and tugs have been badly overcrowded as was the Eastland when it turned over.

Others of Crew Arrested.

Chicago, July 27.—Eight more members of the crew of the Eastland were taken into custody, making fifty-two of the seventy officers and men now under arrest. They were taken to the state's attorney's office and caused to make statements concerning the wreck and then taken to the Fillmore street police station and locked up.

Submarine Sinks Norwegian Ship.

London, July 27.—The Norwegian steamship Fimreite, of 3,819 tons gross, was sunk by a German submarine. The crew was landed.

BRAZILIAN MINISTER FOOL?

That Is What Friends of Shanklin Think of Envoy in Mexico.

Havana, July 27.—Former American Consul General Shanklin, at Mexico City, arrived here on his way to Washington and declined to say anything regarding affairs in Mexico or the recent attack made against him by the Brazilian minister to Mexico, Oliveira, who is administering the affairs of the United States in Mexico.

Among the other arrivals, however, were well informed persons who said that the Brazilian minister asked Mr. Shanklin to ascertain the number of Americans in Mexico City and that in accordance with this request Mr. Shanklin advertised in the newspapers asking Americans to register with "Consul General Shanklin." The Brazilian minister thereupon asserted with anger that Mr. Shanklin had no right to call himself the consul general.

Only the tortures of the medieval rack are comparable to the agonies which many women

suffer through the peculiar weaknesses and diseases of their delicate, feminine structure. They have found in Dr. Pierce's Favorite Prescription the one unfailing remedy which heals feminine weaknesses at their very source. This marvelous "Prescription" restores absolute health to the internal organism; stops ulcerated conditions, gives elastic strength to the supporting ligaments, vitality to the nerve centers, and complete womanly vigor to the entire constitution. It is the perfect fortifier and regulator at every critical period from the time when they merge into womanhood until the "change of life." It is the one medicine which makes motherhood safe and almost free from pain.

A NERVOUS WRECK.

Murphyboro, Ill.—"When I began taking Dr. Pierce's medicines I was just a nervous wreck, I could hardly be on my feet. While not able to work, I tried to keep up. I was recommended to use 'Favorite Prescription' and I took three bottles. I began to get better and when the treatment was finished I was much stronger and better able to work. The remedies were fine, easy to take and fully satisfactory."—Mrs. Wm. Blackwelder, 435 North 14th St., Murphyboro, Ill.

COMB SAGE TEA IN LIFELESS, GRAY HAIR

Look young! Common garden Sage and Sulphur dardens so naturally nobody can tell.

Grandmother kept her hair beautifully darkened, glossy and abundant with a brew of Sage Tea and Sulphur. Whenever her hair fell out or took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. By asking at any drug store for "Wyneth's Sage and Sulphur Hair Remedy," you will get a large bottle of this old-time recipe, ready to use, for about 50 cents. This simple mixture can be depended upon to restore natural color and beauty to the hair and is splendid for dandruff, dry, itchy scalp and falling hair.

A well-known downtown druggist says every body uses Wyneth's Sage and Sulphur, because it dardens so naturally and evenly that nobody can tell it has been applied—it's so easy to use, too. You simply dampen a comb or soft brush and draw it through your hair, taking one strand at a time. By morning the gray hair disappears; after another application or two, it is restored to its natural color and looks glossy, soft and abundant.

As a result of the affair the baseball team will have a balance to add to their treasury and assist in defraying the expenses of the team for the season.

Important news for our readers for August 4, 1915. Watch for it.

Friday being circus day at Mendota we nearly all were there. My such a crowd. When we glanced over those thousands of people we begin to wonder what a terrible sight it must be for Europe to witness countless armies numbering not thousands, as we saw at the circus, but millions.

West Brooklyn furnished her share of the crowd in Mendota on Friday afternoon for on every hand we saw some one or two from here. An instance of the size of the crowd and the rush to get inside the tent can best be told by the following illustration: A lady in the jam nearby had the misfortune to drop her hat from off her head and it managed to reach the ground. She could not stoop to pick it up for the people were wedged so tightly together and pushing on ward that the only way the lady could move at all was with the crowd and they never stopped to stoop. Her hat never got to the circus. Well we all got into the show and saw about all we could see when endeavoring to watch three ring performances at one time and then started for home at about 6 o'clock. The road was filled with people coming for the evening performance and again we noticed West Brooklyn's share in the crowd. Now we couldn't mention any names for we were nearly all there.

Jesse Eddy of Compton was here Thursday.

Mr. and Mrs. Jos. P. Sondgeroth and Anton Sondgeroth motored to Freeport Saturday to spend the day with friends.

Another fine large crowd was in West Brooklyn Thursday night to hear the third concert of the season given by the band. The new lighting system afforded the boys a fine light to play under and they certainly appreciated the improvement after having had to play in the semi-darkness for the past three years. The new system consists of an umbrella shaped affair with electric bulbs extending from the outer edges just over

each band boy's music rack. It is fine. The boys Thursday night were without a couple of their big instrument players and the difference was noticeable in their playing but nevertheless the music was fine anyway. The two boys were unavoidably kept away last Thursday but every member will be on hand this Thursday and they would be glad to see the largest crowd of the year in town to enjoy the concert as they have selected an excellent program for the evening. Come and meet your friends and enjoy the hospitality of West Brooklyn's business men and citizens.

Helen Meeks of Amboy is a guest of Mr. and Mrs. Amel Henry this week.

A number of binders have gone out of the F. D. Gehant & Son implement store this week and the firm looks for a record breaking season in the sale of these machines as the grain will perhaps be too much for the older binders and compel the farmers to purchase new ones in their places. The oats are ripening fast and some of the early varieties were harvested this week.

Fred Meyer of Ashton was here on Thursday shopping.

John C. Henkel was a visitor in West Brooklyn on last Thursday afternoon.

Mr. and Mrs. John R. Oester of Sublette were visiting at the home of Mrs. John Oester Sr. in our town on Wednesday.

Mrs. James A. Phelan and sister, Miss Gertrude McClintock of Milwaukee, who is her guest at the present time, were visitors in town on Friday.

Supervisor and Mrs. U. G. Dysart and Mr. and Mrs. August Gehant of Viola were visitors in West Brooklyn Friday.

F. W. Meyer has been holding a very successful clearing sale this week in his store.

A Bald Head Only Indicates that the scalp has been neglected. We recommend that you use "93" Rexall Hair Tonic.

Kills the germ that causes the hair to fall out and will keep the scalp healthy.

APPLE CROP BRINGS \$29,400

Illinois King of That Staple Sells 21,000 Barrels.

Hardin, Ill., July 27.—Chris Ringhausen, known as the apple king of Calhoun county, has just sold his apple crop this year for \$29,400. The buyer must pick and pack the apples and ship them. It is estimated there will be at least 21,000 barrels of apples in the orchards.

Ringhausen owns three orchards in Calhoun county, and one in Jersey county, across the river. His is the first big sale of apples made, but buyers from northern markets have begun to arrive in Calhoun county, and the apple buying season will be in full swing this week. Ringhausen, about twenty years ago, when he was poor, started in the apple business. Today he has the largest income of any man in Calhoun county. His fortune was based on apples only.

SCHOFIELD HOTEL AND COTTAGES

This popular resort is almost as well known as the Dells. It has been entertaining summer guests for forty years, and has lately been enlarged in capacity by the erection of a large modern building, fully equipped with every modern convenience, and affording dining room, assembly parlors, etc. This is an addition to the popular cottage plan, and adds to the previous popular attractions of the older system. The hotel and cottages are in extensive grounds, delightfully shaded by large oaks, and being away from the river is most especially desirable for families with children. The location is in the edge of Kilbourn on a pretty resident street, but a pleasant walk from the river and depot, and with regular free bus and carriage service to these points. The large hotel is not surpassed in this locality in point of modern style and comfort. The annex cottages and grounds make it altogether everything that anybody would desire. The test of efficiency is in the table. This hotel is especially noted for its excellent table board. Fresh butter, eggs, vegetables and fruit are supplied daily from the farm, and its preparation by a professional chef is perfect; chicken dinners twice a week.

family for week or longer. Rooms with bath must be applied for in advance. Rates: \$2 per day, \$12 per week, half rates for children; rates made to family for week or longer. Rooms with bath must be applied for in advance. Free use of garage.

Sympathy From Illinois W. R. C.
Chicago, July 27.—An expression of sympathy for bereaved homes of Chicago, caused by the sinking of the Eastland, was presented by Sarah Hardwood Darling, department president, Women's Relief Corps of Illinois, and adopted at an open meeting of Old Glory post, G. A. R., at Masonic temple.

Attempts to End Life.
Springfield, Ill., July 27.—Charles Streder, a park custodian, attempted suicide by swallowing a poison at his home. According to the police he had been worried over domestic troubles and while his wife was making a trip to a nearby butcher shop he decided to end his life.

Motorcycle Policeman Killed.
Lake Forest, Ill., July 27.—Motorcycle Policeman Claude M. Spradling of Lake Forest, while pursuing a speeding auto, crashed into another auto at Deerpath avenue and was thrown with such force against a tree that he died a half hour afterward.

BECKER'S LAST PLEA

WINS 2-DAY RESPITE

Execution Was to Have Taken
Place To-morrow.

New York, July 27.—Charles Becker's last plea for a reversal of the verdict of the jury which found him guilty of murder has been made, but not decided, and the legal points involved are so intricate that Justice Ford has won for Becker a two-day respite.

W. Bourke Cockran, chief of Becker's counsel, urged upon Supreme Court Justice Ford for four hours that new evidence of sufficient weight had been uncovered to merit a new trial for the condemned man. Justice Ford reserved decision and counsel for both sides submitted briefs on the legal points at noon today. Justice Ford called up Thomas Mott Osborne, warden of Sing Sing, on the telephone, explained the situation to him and said it would be advisable to postpone Becker's execution until later so that he will not have to hurry with his decision.

Wednesday morning at 5:45 had been fixed as the time and the invitations had been sent out, but Warden Osborne readily agreed to postpone Becker's death until Friday morning at the same time.

CONSTANTINOPLE MENACED

British Submarine Penetrates Harbor and Sinks Four Boats.

Athens, July 27.—For the second time since the Dardanelles operation began, a British submarine has penetrated the harbor of Constantinople, sinking a Turkish transport, two gunboats and a steamer loaded with ammunition.

Advices reaching here from Constantinople said the submarine torpedoed a Turkish transport in the Sea of Marmora and proceeding to Constantinople, sank the gunboats and the ammunition steamer near the wharves. One of the submarine's shots damaged the wharf at Topkane, a suburb of Constantinople, where the Turkish artillery arsenal and barracks are situated.

OIL STRIKE IS DEADLOCKED

Men Reject Offer of Superintendent to Return to Work.

New York, July 27.—A deadlock apparently had been reached in the strike at the Standard Oil company's plant in Bayonne, N. J., where several thousand men from that plant and two other oil works were still idle.

Although the Standard Oil company's superintendent called on the strikers to return to work and promised that if they did so he would make recommendations in their behalf to the officials of the company, the men rejected his offer and seem determined to continue the strike.

Strike of Longshoremen Ended.

New York, July 27.—The strike of 1,800 longshoremen employed by the Clyde Steamship company and the Mallory Steamship company, which has been in progress since Tuesday and which threatened to cause great delay in shipments, is ended. The men were granted concessions in working hours and an increase in wages.

Burlison Barg Bikers.

Washington, July 27.—Use of bicycles or motorcycles in the rural delivery service is prohibited by an order issued by Postmaster General Burlison, effective Jan. 1, 1916. The order will affect about 8,000 carriers who now use bicycles or motorcycles to cover their routes.

The Telegraph has employed the services of Geo. Murray as country circulator. John Thome still retains his position as solicitor and circulator for this paper.

SIGNALS OF DISTRESS

DIXON PEOPLE SHOULD KNOW
HOW TO READ AND HEED
THEM.

Disordered kidneys give many signals of distress.

The secretions may be dark, contain sediment.

Passages are sometimes frequent, scanty, painful.

Backache is often present day and night.

Headaches and dizzy spells may occur.

Weakened kidneys should receive help.

Don't delay! Use a special kidney remedy.

Doan's Kidney Pills are for weak kidneys, backache and urinary disorders.

Dixon evidence proves their worth.

Mrs. I. L. Shank, 1113 W. Seventh street, Dixon, says: "I had a severe pain in the small of my back and kidneys. It was hard for me to lift anything and after I stooped, I could scarcely straighten up again. I also had dizzy spells and headaches, was constantly languid and felt tired out. I procured Doan's Kidney Pills at Leake Bros. Co's Drug Store and they helped me from the start. Three boxes removed the trouble. Another of my family has also been helped by Doan's Kidney Pills."

Insert here.

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Shank had.

Languages.

The French, Spanish, Italian and Portuguese languages (known as the "romance" languages) are offshoots of the old Latin and are to a considerable extent founded upon it, while the German and English tongues grow up quite apart from the Latin. That is why the Scandinavian, Dutch, German and English languages (which, like the peoples themselves, are closely related) are so scant in Latin words and derivations.—New York American.

Instinct Versus Reason.
There has been current in England of recent years a reaction against reason, an avowed worship of instinct and tradition and even prejudice. The doctrines of this reaction are in themselves fascinating, and they have been preached by fascinating writers. The way of instinct and old habit is so full of ease, so facile and strong and untroubled! Look at the faces of men who are wrapped up in some natural and instinctive purpose. Look at a dog chasing his prey, a lover pursuing his beloved, a band of vigorous men advancing to battle, a crowd of friends drinking and laughing. That shows us, say the writers aforesaid, what life can be and what it ought to be. "Let us not think and question," they say. "Let us be healthy and direct, not fret against the main current of instinctive feeling and tradition."

In matters of art such a habit of mind may be valuable. In matters of truth or of conduct it is, I believe, as disastrous as it is alluring. —Gilbert Murray in Atlantic.

Dangerous Nitroglycerin.
Nitroglycerin is a fearfully dangerous explosive and at a temperature of only 100 degrees—that is, very little more than the warmth of the human body—it begins to decompose.

Tons of nitroglycerin are turned out every day, for it is the explosive from which gun cotton is made. But all the mixing vats are artificially cooled by coils of cold water pipes.

The cleaner nitroglycerin is made the less the danger. Consequently it undergoes any number of washings before it is fit for use. In the earlier days of its manufacture nitroglycerin waste water was allowed to run away through open drains, or into streams. It was not realized that this waste constituted a source of danger until, one day, a flash of lightning, striking ground near a factory, which was soaked with this compound, caused a fearful explosion. A cavity twenty feet deep was blown in the earth, and the factory itself, although fully 200 yards away, was practically demolished.—London Answers.

Destroying Guns.
It may be necessary to destroy guns to prevent them falling into the hands of the enemy, or to make captured guns useless. If a small amount of dynamite or other explosive is available, of course this can be done very effectively. If not, the breech of the gun is closed and the hinge joints smashed as much as possible with a handspike or pick. If there is time a few rifle shots fired at the vital points of the gun effectively jam the mechanism so as to make it useless. With rifles, the bolts are broken off and the barrels destroyed as much as possible. To do this the rifles are well heated over a fire and smashed up with heavy hammers. Ammunition is destroyed by placing it in a deep pit and setting it on fire. Telegraph wires are cut up into small pieces and the poles cut down and broken up.—London Express.

Let Them Hunt For It.
A minister in a local church known for his absent mindedness by the members of his own family, but not by his congregation, saved himself from complete exposure at a recent service by his quick wit.

He had studied his sermon carefully, but had neglected to make any notations of the number of the chapter and verse from which the text was taken. In the pulpit he announced the text and then stopped short while the congregation waited to hear from what place in the Bible it was taken.

As he noticed absence of notes to this fact he quickly announced, "I'm going to give you a week to find from what chapter and verse this phrase was taken." So was exposure averted.—Columbus Dispatch.

Titles of Victor Emmanuel.
The author of "Rejected Addresses" preserved the name of a certain Mr. Pole, as the longest imaginable, in the well known lines:
Bless every man possessed of aught to give.
Long may Long Wellesley Tynley Long Pole live.

but Mr. Pole's name was as nothing to the titles of the king of Italy, many of which are derived from the older kingdom of Sardinia. Where his titles end it might be difficult to say, but they begin, king of Italy, Sardinia, France, Spain, England, Jerusalem, Greece, Alexandria and Hamburg, ruler of the midway sea, master of the deep and king of the earth.—Christian Science Monitor.

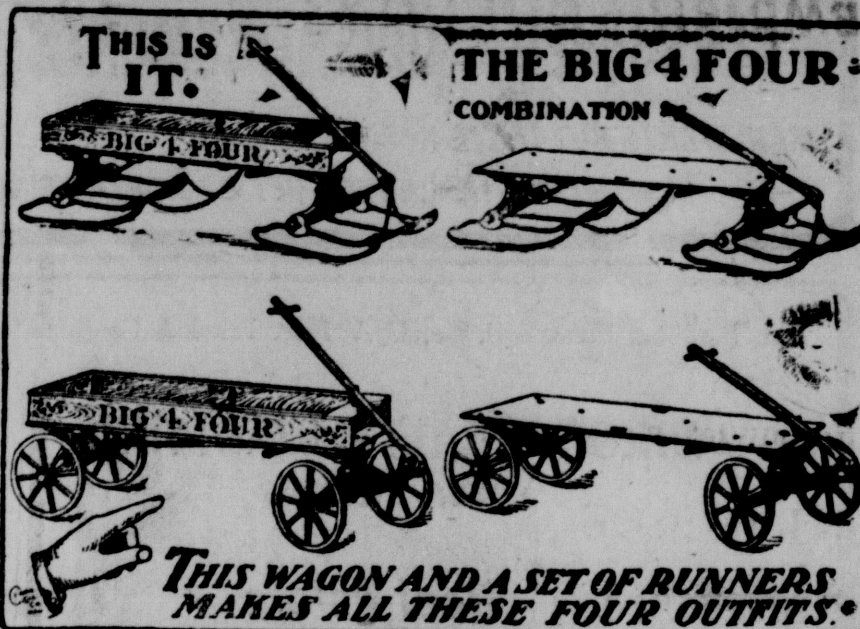

The Word Bible.
The word Bible is derived from the Latin name Biblia, which was treated as a singular, although it comes from the Greek neuter plural meaning "little books." This Greek diminutive was derived from byblus, or papyrus, the famous material on which ancient books were written. The title "Bible" was first used about the middle of the second Christian century in the so called second epistle of Clement, xiv, 2.

Little Children.
The influence of little children is to develop goodness in men and women. Their example teaches love, hope, faith, trust, contentment, joy, delight and cheerfulness, and quickly to forgive and forget unkindness, injustice and injury received from others.

Demonstrated.
"Here's where I show my class," said the professor as he demonstrated the problem on the blackboard.—Dartmouth Jack o' Lantern.

It is difficulties which show what men are.—Epictetus.
